## • MISCELLANEOUS

### No. 81—"OUR PRIDE" HOOF SHEAR

Packed One in Carton

Weight dozen pairs, 34½ lbs.

Blades weight dozen pairs, 3 lbs.

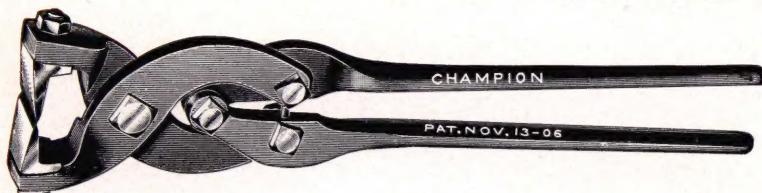

Knives are "right" and "left" and packed six pairs in box.

#### A Few Points Concerning No. 81—"OUR PRIDE" HOOF SHEAR

1. Joint is Ball Bearing, insuring as near a frictionless bearing as possible.
2. Knives Interchangeable, and are Drop Forged from Tool Steel. Can be replaced at small cost. (Note—We are so equipped that duplicate knives are furnished tempered and sharpened. An inexperienced person can change knives within five minutes. The upper knife is called the "right," and the lower the "left.")
3. Both knives are sharp, the edges passing, making a shear cut which insures ease in cutting and a smooth job. This construction also allows  $\frac{1}{8}$ -in. on blades for sharpening.
4. Handles can be grasped with one hand when open.
5. Any looseness or side motion of the joint is easily overcome by simply tightening the nut on joint bolt, a very valuable point in a hoof shear, as it greatly increases the life of the tool.
6. The tool has few parts—two handles (Drop Forged) and two jaws (Drop Forged), with bolts; also balls for bearings. Note neat appearance, the absence of complicated parts, which insures against clumsiness and overweight.

Without exception this is the finest Hoof Shear ever offered the trade. The finish and workmanship are unexcelled. A trial means a satisfied customer.

### No. 82—CHAMPION COMPOUND HOOF NIPPER Casterlin Pattern

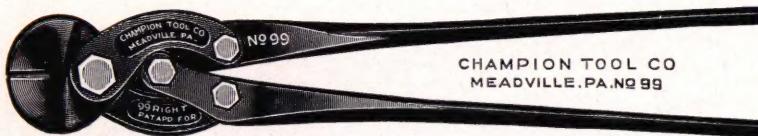

Compound Leverage, Drop Forged Parts  
Interchangeable Jaws

Packed  $\frac{1}{2}$  dozen in carton, 13 inch

Weight per dozen, 28 pounds

### No. 99—CHAMPION DEARMENT UTILITY CLIPPER

Drop Forged. Has few parts: two jaws, two handles, and four bolts.

The angle of the jaws throws handles above a level plane so that any position of work is accessible.

Tool is 15¾ inches long. Weighs 2¼ lbs.

New heads can be furnished and when installed make tools as good as new as the "stop" to protect edges is in the head.

### No. 148—HEAVY DUTY CUTTING NIPPER

This "Heavy Duty" Nipper is specially designed, for Concrete Form Builders, Carpenters, Mechanics, Farmers and for Miscellaneous work.

It will easily cut large nails, small spikes, form tie wires, reinforcement wire, etc.

It is Drop Forged from special analysis steel, and is so designed as to give artest leverage and strength. Stops prevent dulling of edges and provide adjustment when cutting edges wear off.

Special Heavy Design

Extra Leverage — 14 Inches Long  
Stop Prevents Dulling Edges

Wt. 28 lbs. per Dozen

Packed  $\frac{1}{2}$  Dozen in Carton

# DeARMENT CHANNELLOCK PLIERS

# CHAMPION DeARMENT TOOL CO.

MEADVILLE,  
PA., U.S.A.

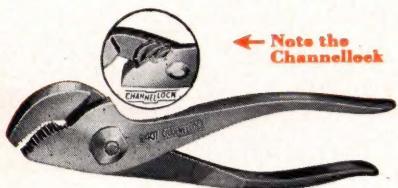

Self

Gripping

**Channellock Self-Gripping Pliers** incorporate the new revolutionary, powerful gripping, Channellock design. The tongue and groove Channellock joint provides a vise-like grip entirely independent of the gripping power of the user's hand. They are forged from high grade steel, and properly heat treated. Each plier is tested far beyond its intended capacity.

### No. 407 Battery Plier

Length 7". Capacity  $\frac{1}{8}$ " to  $\frac{5}{8}$ ". Weight 7 lbs. per doz. Two adjustments. Knurled handles.

This No. 407 plier is primarily intended for battery work. The self-gripping feature insures a positive grip on acid corroded and mutilated terminal nuts. Its adjustable feature also makes it indispensable for many other kinds of work. Polished steel finish.

Packed dozen per carton.

### No. 410 General Utility Plier

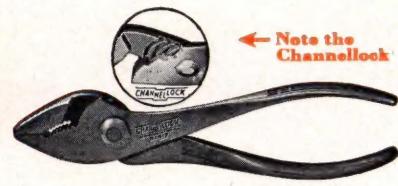

Length  $9\frac{1}{2}$ ". Capacity  $\frac{3}{16}$ " to  $1\frac{1}{8}$ ". Weight 11 lbs. per doz. Four adjustments.

Our No. 410 is a heavy-duty self-gripping plier which will hold work of any shape with a positive pipe wrench grip. Will exceed a pipe wrench in usefulness because of its light weight and streamlined design. Polished steel finish.

Packed dozen per carton.

### No. 417 Heavy Duty Gripping Plier

Length 7". Capacity  $\frac{7}{8}$ ". Weight 7 lbs. per doz. Three adjustments. Knurled handles.

The No. 417 is a heavy-duty plier with a gripping power many times greater than the ordinary slip-joint plier. Polished steel finish. Its superiority can only be appreciated by actual use.

Packed dozen per carton.

### No. 420 Pump Plier

Length  $9\frac{1}{2}$ ". Capacity  $\frac{3}{16}$ " to  $1\frac{5}{8}$ ". Weight 9 lbs. per doz. Five adjustments. Knurled handles.

The wide range of adjustments of the No. 420 Pump Plier makes it adaptable to a multitude of uses. The Channellock adjustment eliminates wear on the joint bolt and greatly prolongs the life of the tool. Polished steel finish.

Packed dozen per carton.

### No. 424 Ignition Plier

Length  $4\frac{1}{2}$ ". Capacity  $\frac{1}{2}$ ". Weight 16 oz. per doz. Four adjustments.

This No. 424 ignition plier incorporates the Channellock adjustment feature in order to eliminate wear on the joint bolt and lengthen the life of the tool. A midget plier. Polished steel finish.
